## 1. 1. Water Conservation Policy

The primary goal of water conservation policy is to provide safe and clean potable water in the campus and also use optimum water where ever necessary. Student and staff are encourage to play a major role in the water sustainability strategies. The institution is committed to ensure that water is used most judiciously and is working towards making the area water sustainable. This has been achieved through the use of water efficient fixtures, rain water harvesting and smart water conservation practices. The institution collects water from Grampanchayat water supply department through the close water pipe and is stored in underground water storage tank. The institution is equipped with overbuilding water storage tanks for storage and uniform distribution of water in the campus. The college fixes leakages immediately and performs periodic maintenance required to prevent water losses.

### ❖ Objectives

1. To collect rain water from rooftops of all institutional buildings, without disturbing the ecosystem.
2. To reduce water consumption using proper disposal of waste water
3. To use drip irrigation system to control water supply and use it for gardening.

### ❖ Water Conservation Policy

Every drop of Rain is harvested from rooftops of buildings. And is conserved by recharging the bore well. Water storages tanks are made available in each building with float valves. Effective monitoring of water supply, and instant repairing of water leakage and control on overflow is continuously maintained. Reverse osmosis plants and water cooler plants are deployed in the institution to facilitate safe and clean drinking water as well as to reduce water wastage.

## 1.2. Green and Plastic free campus

**Green Campus:** A green campus is an area where sustainable and eco-friendly practices are promoted through education and environmental friendly actions. The lush green college campus idea gives an organization the chance to take the lead in reinventing its environmental culture and forging new paradigms by developing sustainable solutions to the requirements of mankind in the areas of the environment, society and the economy. The Go Green Program's goals are: Establishing a functional Green-Campus Committee inside the Institute's organizational framework is the first stage in the Go Green Program. Therefore, institute releases a **POLICY Document:** outlining the strategies, plans, and other related activities to officially launch this Program in order to offer this endeavor greater credibility and clarity. We think that going green is all about eliminating wasteful inefficiencies, using conventional energy sources for daily power demands, processing waste properly, buying eco-friendly products, and having a successful recycling programme. The Institute's administration is of the opinion that everyone must devise time-bound plans for putting into action green campus activities. In order to create a clean and green campus, these techniques must be implemented into the institutional planning and budgeting procedures. Every person in the Institutions shall put out effort—students, Teachers and Non- teaching staff included—to promote an environment-friendly campus and a culture of self-sustainability.

### Significant Green Campus Initiatives include:

- ✓ ISO 9001:2015 Certification.
- ✓ Upgrading the solar power facility and maximum use of LED Bulbs.
- ✓ Rainwater collection and waste water management.
- ✓ Utilization of micro-scale methods.
- ✓ Display billboard about managing e-waste.
- ✓ Upkeep of the campus's water resources and distribution infrastructure.
- ✓ ERP will enable paperless government.
- ✓ Promote zero-waste campus.
- ✓ Drive Tree Plantation.
- ✓ Gardens and landscaping.
- ✓ Use only of LEDs, electronic library and learning Centre.
- ✓ Creation of the environmental club, conducting an energy audit
- ✓ Restricted access for vehicles.
- ✓ Use of Bicycles, Use of Public Transportation.
- ✓ Ban on Use of Single Use Plastic.
- ✓ Solid Waste Management by promoting Vermicomposting unit.
- ✓ Initiatives to engage the campus community in sustainability efforts through workshops, seminars, events and awareness campaigns

### 1.3 Policy on the Disabled Friendliness of Institution

The Government of India formulated the national policy for persons with disabilities in February 2006 which deals with educational rehabilitation of persons with disabilities, therefore in view of this, the college has implemented these policies in the teaching and learning process, admission process and participation in overall activities of the institution. The policy recognizes that persons with disabilities are valuable human resource for the institution and seeks to create an environment that provides equal opportunities, protection of their rights and full participation in the academic environment.

**The focus of the policy is on the following:**

- ❖ To ensure that the design of the building such as ramp/ lift should be according to the disabled persons.
- ❖ To ensure the accessible, gender-sensitive, safe, usable and functional washroom facilities should be provided for disabled persons.
- ❖ To ensure the proper text and pictogram signage such as tactile path, lights, display boards, signposts are necessary, located to be visible and touchable.
- ❖ The use of signage of male and female symbols, in accordance with local customs and standards, with raised outlines and bright colour contrast will be more evident to everyone and particularly helpful for persons with visual impairments.
