Department Of Physics organised
Group Discussion Activity
On topic
‘Pro and Cons of Nanotechnology’
2024-25

The Department of Physics organized group discussion activity for B.Sc III students to boost confidence and stage daring of the students.

The departmental faculty was present when the activity was carried out. The student did a very good job of explaining even the smallest details of nanotechnology during this exercise. In her explanation of the benefits of nanotechnology and its uses, Miss.Ankita Gavade mentioned how the technology has been extensively researched for its potential to progress biotechnology and medical research .Mr. Kishor Dhokale gave an explanation of the significance of nanotechnology in today's world. Miss.Rutuja Nalage talked about the potential impacts on human and environmental health as well as future career options in nanotechnology. Every student engaged in the exercise and contributed to the discussion of different viewpoints on nanotechnology. Under the direction of Honorable Principal Dr. U.V.Patil all of this work was carried out.

While students discussing about Pro's and Con's of Nanotechnology
