RAYAT SHIKSHAN SANSTHA'S

DR. PATANGRAO KADAM MAHAVIDYALAYA, RAMANANDNAGAR (BURLI)

DEPARTMENT OF ZOOLOGY

As a part of Syllabus prescribed by the Board of studies in Zoology, Shivaji University, Kolhapur the Department of Zoology had organized field visit for B. Sc. I classes students to Dukari (Amnapur), Taluka: Palus, District: Sangli. During the excursion students observed various avian, amphibian, reptilian species found in the locality and discussed about the conservation. This area is enriched with a variety of Algae such as Golden brown algae, diatoms, green algae etc.

During this visit the students observed the native and migratory birds and identified the species and various natural habitat. Dukari is located at, Amnapur Tal: Palus. The Flora and fauna are observed. Symbiotic relationships is also observed. The number of different species of birds & plants are located in this area. Total 39 students participated in this tour. The tour was guided by Mr. Mane A. B. and Miss Mamlayya A. B. The students get emphasizing the focus on biodiversity.

Outcomes: Students are learned how to understand the intricate web of life.

Beneficiaries: 39
