Department Of Physics organised
Group Discussion Activity
On topic
‘R.P of Optical Instrument’
2023-24

Department of Physics organised a group discussion activity on the topic ‘Resolving Power of optical instruments on 29th February 2024 for the B.Sc. II year students.

The objective of the activity is to improve oratory skill, conceptual understanding, stage daring and analysis of the topic to improve overall development of students with these intentions our department took action and conducted this activity.

The activity was conducted in presence of departmental faculty. During this activity student explained resolving power of optical instrument and how it plays a crucial role in various applications, including telecommunications, laser technology, and optical measurements.

Mr. Aniket Patil explained how optical power is used to quantify the brightness or intensity of a light beam.

Miss.Shivani Sankpal discussed function of optical source. All students actively participated in the activity and discussed various perspectives of nanotechnology. All this activity was conducted under guidance of Honorable Incharge Principal Prof.Dr. U.V.Patil.

B.sc III students Participating in group discussion activity

Mr.Aniket Patil explained the concept of Optical Instrument.

Miss. Shivani Patil explained function of optical instrument

While Students enjoyed the activity.

Outcomes

- To improve oratory skill, conceptual understanding, stage daring and analysis
- To improve overall development of students
