Report on Tree Plantation Programme

Date: 03 August 2020

Organized by: Department of Physics

The Department of Physics organized a Tree Plantation Programme on 03 August 2020 with the objective of creating environmental awareness among students and promoting the importance of greenery and conservation of nature.

Programme Details

As a part of the programme, various tree saplings were planted in and around the college campus. The activity included planting different varieties of trees such as Jackfruit (फणस), Golden Champa (सोनचाफा) and Mango (आंबा). The faculty members and students actively participated in the plantation activity.

The programme highlighted the importance of trees in maintaining ecological balance, improving air quality, conserving biodiversity and creating a healthy environment. Students were also encouraged to take responsibility for the protection and regular care of the planted saplings.

Objectives

- * To create awareness about environmental conservation.
- * To promote a clean, green and healthy campus.
- * To encourage students to participate in environmental activities.
- * To understand the importance of trees in maintaining ecological balance.
- * To develop a sense of responsibility towards nature.

While planting trees

Outcome

The Tree Plantation Programme was successfully conducted with active participation. The plantation of fruit-bearing and flowering trees such as Jackfruit, Mango and Golden Champa added to the greenery of the campus. The activity helped inculcate environmental responsibility and awareness among the participants. The programme concluded with a commitment to protect and nurture the planted trees and contribute towards a greener and healthier environment.
