**“Vending Machine Operating”**  
**2024-25**

The introduction of vending machines for hygiene products in colleges addresses a crucial need for accessibility to essential personal care items. Such machines provide convenience to students and staff, ensuring they have access to hygiene supplies anytime, especially during emergencies. This report outlines the operation, benefits, and considerations for managing a hygiene product vending machine in a college setting.

Women Empowerment Committee organised demo activity on “Vending machine operating” on 17 December 2025 for the girl students of Dr. Patangrao Kadam Mahavidyalaya, R.Nagar. The objective of the program was to spread awareness among the students to provide easy access for hygiene essentials like sanitary napkins, tissues, hand sanitizers, soap and other personal care items, also promote hygiene and well-being among the college community. Dr. G.R. Patil proposed vote of thanks. All this activity was conducted under guidance of Honorable Principal Prof. Dr. U.V. Patil.
