MAIN THEME OF SEMINAR

Indian monsoon arrives in the month of June every year. Early or late arrival of monsoon excessive rainfall or drought influence agricultural productivity, food availability and inflation, market prices and GDP. Recently in Maharashtra state unseasonal heavy rain fall disrupt sowing, harvesting cycles and crop yields. The main aim to organize this seminar is that what strategies should be undertaken to overcome this changing scenario of the monsoon in India. This seminar attempts to provide platform to discuss which strategies should be undertaken to overcome this variations in monsoon intensity and distribution in India.
